

How to submit Match Feedback

Go to your personal area and click on the tab with the match in question. Be careful not to click on the nearby tab to say that match was cancelled! You will then be invited to give your opinion on the standard of the home team's (human) hospitality and refreshments and also separately on the on-field attitude and behaviour of both teams. Please refer to the rubric in the Information Area on team behaviour.

{could put this in here as well??}

Only press the tab to say that no teas were provided if none were offered to you at all. If they were offered and you declined them, do not say that they were not provided! You will also be asked to say how many yellow and red cards you awarded to each team during the match.

Finally you will be invited to enter your mileage or the cost of your transport to and from the match. If you do not agree with the google calculator's estimate of your journey, there is a box to write your explanation.
